

WOODCASTLE
FOREVER FURNITURE

**HEIRLOOM QUALITY.
MADE IN THE USA.**

The honesty of solid wood. The sophistication of state-of-the-art technology. The strength of traditional and contemporary designs that focus on function, not flamboyance.

These are the building blocks of Woodcastle furniture. With precision milling and computer-aided design, we elevate traditional craftsmanship to a new level. For example, our component accuracies are within one hundredth of an inch, a significant step up from the tolerances conventionally considered acceptable in the business. As a result, we can engineer interchangeable drawers that fit anywhere in the same—or even a different—case.

Because we build each case around an internal web frame, a Woodcastle dresser has the strength to resist racking and twisting, whether you move it across the room or across the country.

From the hardware we choose, to the joinery of our handcrafted beds, tables, and chairs, Woodcastle delivers heirloom-quality craftsmanship in every piece we make. There’s a reason we call it “forever furniture.”

FEATURED PROPERTIES

Furniture is function. It’s an expression of the character of a place. It’s the comfort and quality that guests can simply take for granted. In each of the properties featured below, we’ve created warm, elegant designs that reflect their setting and bring delight to those who use them.

SALISHAN SPA & GOLF RESORT

Between coastal forest and the teeming Siletz Bay, Salishan has offered its guests a certain luxury for over 50 years. Golfers wend their way along an 18-hole course through woods and shoreline; guests indulge their senses at the spa. Miles of hiking, a private beach access trail, and an array of local beers and wines complete the picture.

Salishan commissioned Woodcastle to create a collection of custom furniture for its newly remodeled guest rooms, where live-edge headboards are marked by a wood-burn medallion that displays the resort's logo. In the conference room, a table shows off the grain of Oregon ash in almost liquid patterns: a traditional piece of imposing beauty.

LOCATION

Gleneden Beach, Oregon

SCOPE

Custom design and manufacturing of beds, tables, combo units, and benches in guest rooms; conference room table

WOOD

Oregon maple (guest room collection), Oregon ash (conference table)

FINISH

Kennedy brown stain (guest room collection), driftwood stain (conference table)

LOCATION

Lebanon, Oregon

SCOPE

Custom design and manufacturing of beds, nightstands, tables, desks, live-edge mirrors, and combo units for guest rooms; tabletops and a live-edge bar top for the 1847 Bar & Grill

WOOD

Oregon maple, black walnut

FINISH

Hampton walnut stain

BOULDER FALLS

Every detail at Boulder Falls Inn is tuned to convey a sense of place with warmth and refinement, from its casually elegant guest rooms to the expansive Japanese-inspired garden with waterfalls, walking paths, gazebos, and koi.

Drawing inspiration from our Cascadia collection, we created a custom furniture design for the hotel, including a black walnut table in the lobby, casegood handles of Oregon maple, live-edge mirrors in guest rooms, and a live-edge bar top in the 1847 Bar & Grill.

“Woodcastle goes above and beyond to provide a beautiful product on every project.”

JENNIFER HATFIELD, WCI, INC

BANDON DUNES GOLF RESORT

On the windswept coast of southern Oregon, Bandon Dunes Golf Resort offers serious golfers serious challenges with three links-style courses traversing rugged dunes and tall grasses.

The resort chose Woodcastle for our demonstrated expertise in crafting superior furniture from regionally sourced materials, including Oregon’s beloved big leaf maple. We furnished the Lodge, the four-unit housing clusters at Chrome Lake, and the Lily Pond Rooms building at Bandon Dunes with beds, tables, and casegoods that will help guests unwind for many years to come.

“There’s the best... and then there’s everything else.”

MICHAEL KEISER, BANDON DUNES DEVELOPER

LOCATION

Bandon, Oregon

SCOPE

Custom design, manufacturing and installation of beds, tables, and casegoods

WOOD

Oregon maple

FINISH

A durable, pre-catalyzed clear lacquer to protect the wood and enhance the beauty of its grain

LOCATIONS

Troutdale, Oregon
Forest Grove, Oregon

SCOPE

Custom design and manufacturing of beds, nightstands, tables

WOOD

Oregon maple (Edgefield)
White oak (Grand Lodge)

FINISH

Clear lacquer over a light stain (Edgefield)
Hand-stained to simulate cherry (Grand Lodge)

MCMENAMINS EDGEFIELD & GRAND LODGE

McMenamins is the inspiration of two Oregon brothers who wanted to offer their guests artisanal beers, entertainment, and lodging from restored historic properties.

Edgefield is a historic farm near the Columbia River Gorge, whose sprawling grounds are dotted with old buildings. The main lodge is a warren of guest rooms, gifts, dining, and drink, festooned throughout with illustrations from fairytales and other lore.

The Grand Lodge is a restored Masonic building with European-inspired bunk rooms and baths, as well as pubs, theaters, and conventional guest rooms. Like The Edgefield, it derives its character from history and art, decorated with hand-painted whimsy.

McMenamins approached Woodcastle to furnish both locations in a style that would honor the character of each: reflecting their histories while blending with a potpourri of separately acquired pieces. We delivered on our reputation, fulfilling on time, on spec, and on budget.

Woodcastle produces heirloom-quality hardwood furniture in a variety of traditional and contemporary styles, offering design, manufacturing, delivery, and installation services to a broad range of discriminating clients. No matter the project, Woodcastle delivers on spec, on budget, and on time.
